Some of the comments from Members:-

- I am not usually a 'joiner' however I found that I needed support - support to enable me to grow in Reiki confidence and knowledge, to develop as a practitioner and a person and to be able to ask questions and not feel stupid. With The Reiki Connection/The Gentle Touch (TRC/TGT) I found a home.
- TRC is real, the people are real; you are not just a number on a database or a website. Always a person at the end of the phone, email or zoom call to answer your questions or point you in the right direction or to further develop your Reiki. TRC has supported me on my continued Reiki journey
- TRC has enabled me to grow into my Reiki and what's more I have made lifelong friends
- We are like one big happy family, I joined TRC/TGT instead of a larger organisation because I wanted the personal touch
- Everyone is so friendly and supportive which gives me confidence going forward
- I know that if I have something I need to talk through (Reiki or otherwise), I can speak with Jeanne or any of the other TRC members and I will have a supportive and knowledgeable ear, someone who will help me find my own answers, challenge or reassure me.
